LANSING CENTRAL HIGH SCHOOL

LANSING, MICHIGAN

FOREWORD

This 1935 edition of THE ORACLE is published with the hope that it will be enjoyed by all the students of our beloved school. We have chosen as the theme for this edition the foretelling of the future. However, we desire that in future years THE ORACLE will bring back memories of your activities and associations in Central High School. For this reason we have tried to include all the students of the school in this book, and to make it a real record of your years at Central.

CLASS MOTTO

We have built the ladder, watch us climb.

CLASS YELL

Happy Hooligan, Gloomy Gus,
What in the world is the matter with us?
Nothing at all, nothing at all,
Class of '35 will beat them all.

CLASS SONG

We're the Class of '35
And a jolly good bunch are we;

We're very, very happy
And peppy as can be,

Like all good Central students
We've tried to do our best

And we are sure the dear, dear faculty
Has helped us to do the rest.

CHORUS:

Now cheer with all your might for
The Class of '35

And cheer us day and night,
Come, wake up and be alive!

Oh, give a rousing yell for
Good old Central High,

Our love for our dear high school
Could never, never die.

Among the programs of the Euphronian Society for this year, there have been travel talks about obscure corners of our verdant earth, discussions of flower arrangements for decoration of the home, and talks upon the professional opportunities open to girls. The purpose of these widely divergent programs is to broaden and enlarge the interests of the members. The other programs stress an entirely different objective, the all-around social development of the members. To provide such a varied program the members participate in numerous skits or plays, they give reviews and reports upon articles and subjects, and they join in the entertainment features of the club.

The Adelphic Society was organized to promote culture, entertainment, and friendliness. The membership is open to any girl above the Sophomore B Class. Many interesting programs have been given. One of the high lights of the first semester was the initiation party held at Virginia Crosby's home. As a treat to the older members the new members gave a pantomime entitled "Paul Revere." At the annual Christmas party, the society had a grab-bag and all members received lovely gifts. In the spring semester several interesting speakers were on the programs, and a musicale was given by the society's own artists. The society has enjoyed a successful and interesting year.

The purpose of the Cliosophic Society is to increase the interest of the members of the society in literary and social culture. In doing this we invite prominent people to speak to the society during our meetings. These speakers broaden our understanding and culture by talking to us on literature and the main topics of the day. For our social pleasure, we have parties and outside activities along with our meetings every other week. Twice during the semester, plays are given, with a student as director, and students participating, all of whom are members of the society. Some of the more recent speakers have been, H. Lee Bancroft, on "Lansing's Park System," Mr. Wright of Versluis Studio, on "The Art of 'Make Up'," the Rev. John Gabriels, on his recent trip to Rome, and the Rev. Glenn Fry, on "Choosing Companions."

The members of the Euripidean Society are interested in the arts of music, dramatics, and the dance. These interests are the basis of the programs given at the meetings held every two weeks. The great majority of the programs given at these meetings are furnished by the talent of the members of the society. However, about once every semester a speaker, musician or other entertainer from outside the membership of the society is invited to appear before the Euripideans and entertain them. In addition to the literary and musical activities of the society, the members have planned for themselves several social affairs to be undertaken during the semester.

The House of Representatives has the distinction of being one of the oldest societies in Central High School. The purpose of the organization is to teach boys the elementary principles of debate and parliamentary procedure. At the beginning of each term the officers are elected, the clerk, the speaker, the treasurer, and the sergeant-at-arms, new members are sworn in, and pages appointed. A public speaking contest which was originated by the House, is held every semester. This is open to all clubs and societies. To the winning group a trophy is awarded. Under the guidance of Mr. Trachsel, membership in the House of Representatives is most enjoyable and profoundly instructive.

The Frasoris Dramatic Society is the oldest society in Central High School. In the beginning it was a literary organization, but in the last few years it has been changed to a dramatic society. Its purpose is to develop an interest in drama, and ability in the acting of plays. Therefore, the meetings are devoted to the giving of one-act plays. Each alternate year Frasoris represents Central High School in the city's one-act play contest. Usually once a semester an authority on Dramatics comes and speaks to the society. Last semester the society had Mr. Watson of the Gladmer Theatre speak at one of the meetings. At Christmas time Frasoris usually gives a Christmas party for unfortunate children.

The Journalism Club was organized to give the members a more sympathetic understanding of the great American newspapers, and to provide an open forum for the discussion of current news topics. At the end of each semester, during the prize award assembly, the club presents two students, who have worked on either the Oracle or the Zodiac, a prize for the most outstanding work of anyone in the field of Journalism at Lansing Central High School. The prize winner is chosen each semester, by a committee consisting of the faculty adviser of the club, the president, the vice-president, and two members elected by the club at large.

The poetry club endeavors to give its members an opportunity to practice writing original lyric and narrative poetry. During the three years of high school work, the members are able to do creative work far beyond that which would be given in the regular English courses. At every meeting each member presents three of his own poems on whatever subject he may choose. This brings about a systematic writing of poetry, the comparison of the work done by different students, and constructive criticism with helpful suggestions for self improvement. In addition to this regular work, there is an opportunity for social development and the making of friendships.

The Model Airplane and Yacht Club is an organization to which any boy attending Central High School may belong. The purpose of this club is to further interest and knowledge in the construction of model airplanes and yachts. The club has bought parts of disabled planes from the government in order to study their construction. More work has been done on airplane models than yacht models. The models are kept by the students making them. The dues of the club are fifteen cents per semester. The club sponsors an hour dance and a candy sale sometime during the year.

Le Cercle Francais is an organization for all students who have had two semesters of French or are members of French 2 classes receiving B as a final grade the preceding semester, and receiving B grades while in French 2. It enables its members to gain a better knowledge of the French language, people, policies, and customs, as all the meetings are conducted in French. During the semester the various programs consisted of French games, movies of France, a play spoken in French, and a talk on France by some person who had traveled or lived there, about topics of interest to the members. The club enables students to gain a greater interest in the language they are studying.

The History and Travel Club has been sponsoring some splendid "Travel Talks." The Rev. Jayne from Central Methodist Church talked on Italy and Austria. Belgium was presented in an unusual manner by Mr. Waldo of Knapp's Travel Bureau. Movies of Alsace Lorraine and other beauty spots of France, taken by the Railways of France were vastly interesting and gave to the members an eye picture of the scenic beauty of France. At Christmas time a committee headed by Elizabeth Abbott collected and delivered five dollars worth of groceries to one of the needy families in Lansing. Scrooby's orchestra and the "tapping" of Ken Collins entertained the students at the Travel Club's Hour Dance. Virginia Snell as President, and Elizabeth Benner as Vice-President, and the program chairmen have been responsible for this year's splendid club activities.

The Hodierni Romani are emphasizing in their club meetings the less serious aspects of the study of Latin. By games, songs, pictures, and dramatizations they are endeavoring to view Latin as a living interesting language. The club raises enough money each semester to give bronze medals to each member of the graduating class who has finished four years of Latin with an average of B or above the last year. Since the bimillennium of Q. Horatius Flaccus is being celebrated this year, the club is planning a program in his honor. One of his humorous satires, "The Bore" and an ode, "A Lover's Quarrel" have been dramatized and will be given in English, and poems of Horace which have been set to music will be sung. At this time the winners in our local contest in translating Horace will be announced, their translations read, and awards given.

The Debating Club was organized to promote formal and informal debating in Central High School. In connection with these purposes, the members become better acquainted with national problems, learn to organize their ideas into arguments, and are sent in front of a group to express their opinions. Such national and international problems as the world court, the various emergency measures of Roosevelt's administration, unemployment insurance, and other features of current social and economic problems, have been so studied. It has always been a small club, but some of its members each year have earned their major letters in varsity debating.

The Parrot Club has been sponsoring a series of dramatic instructions on stage business, action and characterization for this semester. Mary Ford Conway, director of Civic Players Guild productions, talked and demonstrated proper movement and action on the stage. Ruth Bervig characterized, through readings and instruction, proper interpretation and presentation of types of character. As a result of such training the Parrot Club produced the "Sign Unto You" for Christmas assembly program. Many letters of appreciation have been received in commendation of this presentation and the acting ability shown. The cast of "Sign Unto You" included Mary Morton, Frances Dahline, Marjorie Harper, Archie Schultz, and Bud Rutter.

The chief purpose of the organization is to develop an ever increasing interest in art and its relation to every day life; to develop skills which should be productive of joy in school life and give resources within which enable one to make worthy and happy use of leisure time. The activities of the club include handicraft, portrait drawing, demonstrations and speeches by local talent, and a number of projects worked out for the benefit of the school. Among these latter were the bazaar, art exhibitions, and the tree and nativity scene in the social room at Christmas time. Any art class student is eligible to become a member of this club if he is interested in fine arts and has a grade in art no lower than a C, the previous semester.

The Science Club, one of the older clubs in the school, has a membership of thirty boys distributed as evenly as possible between classes with the exception of the Sophomore B's who are not represented. It endeavors to carry out its purpose of furthering science in its various forms. The programs are varied and consist principally of discussions and reports on recent developments in science, of lectures, motion pictures and field trips. Within the past two years the following places of interest have been visited: General Motors proving grounds, University of Michigan Observatory and Museum, Parke Davis Co., Michigan Bell Telephone Co., State Laboratories, Jackson Prison and the WJIM broadcasting station. The club has been interested in certain social activities which include a reception for new members, dinners, picnics and skating parties.

The purpose of the Printers' Guild is the promotion of the interests of Printing through study and discussions of the trade. The Guild has completed a very successful year. During this term two projects have been undertaken: first, score cards for each home football game; second, a 1935 calendar of famous printers. Each member was responsible for the gathering of material for one month of the calendar. Several special meetings were held; one, a Bohemian supper and recreation in the school gym, and the other a party at Mr. Cigard's home. In room 215, various displays of printing on advertising and from European countries have been shown during the year. The National Printing Education week of January 14-19 had a special display on Benjamin Franklin and projects completed in the various classes.

Many students are more than usually interested in some aspect of nature as a hobby or avocation. It is for these, that they may share and exchange findings and experiences with other kindred spirits, that the club is organized. This club is planned to approach the natural world from the appreciative rather than the technical point of view. During club hours the members discuss subjects and exhibit collections or findings along their own interest lines, and at special times, field trips and excursions are planned. A trip to Kellogg Bird Sanctuary is one of the year's plans, and there are other trips nearer Lansing, on the calendar. The State Conservation Department furnishes films, speakers and information on many subjects, which would interest anyone.

The Roger J. Stiefel Taxidermy Club has a business meeting each club day, a social meeting the second Tuesday evening of each month, a week end trip each semester, and three members work at the club studio every evening of the school week. The boys learn to do taxidermy work and each specimen is given a mark by Mr. Trachsel. A red squirrel marked "C" gives the taxidermist one point. The same animal marked "A" gives three points. A member must put enough material in the school museum each semester to total five points. The member earning the most points each semester becomes President. When a boy has earned 100 points he becomes a commercial taxidermist and is given work for which he receives money.

This semester the following programs are being given: Edward Ledyard arranged a visit to the East Lansing Weather Bureau station. Robert Jack gave a very interesting illustrated lecture on "Michigan Fish and Fishing." Melvin Herr gave the club a very good idea of the geology of Michigan. Charles Opdyke arranged a program on Astronomy. Royden LeClear gave an interesting program on Michigan animal life. The last program of the semester was on Geneology and our President, Donald Waldren, had charge.

The Automobile Club was organized primarily to learn the traffic laws and ordinances of Lansing and also to learn more about the cars which we drive, their mechanisms, controls, and some of their ills. Courtesies of the highway are also stressed so that our young drivers or would-be drivers will see that there are others on the road with as many rights and consequently entitled to just as much consideration as they. A committee has been appointed to name members of the club to report on some outstanding features of the automobile for future meetings. Some of the topics to be talked on are the Super Charger and the Air Flow idea and its future.

The purpose of the Electrical Club is to be of service to the Lansing Central High School through assisting it in the repair of its electrical equipment. The meetings are shop meetings at which work is done such as the winding of coils, soldering connections, cleaning contacts, etc. Although most of the time, the club is doing this work for Central, it usually invites another club at Central to hold a joint picnic with it. Usually these picnics are held at Grand Ledge. The total number of members in the club at the end of the first semester was fourteen.

The Friendship Club of Girl Reserves is an organization whose purpose is to promote a friendly spirit among the girls of Central High School. Interest groups during this year were confined to charm, music and creative dramatics. Early in the first semester the club sponsored an assembly program to welcome the Sophomore B Class, also a "watermelon dive" at the Y. W. C. A. for new girls. The service committee was responsible for the Thanksgiving basket which was sent to a needy family, and for the Christmas party given for a group of underprivileged children. The "Dad and Daughter" function, the Christmas party, Spring frolic Senior breakfast and ring ceremonial were all happy occasions. Delegates chosen by the club attended the mid-winter conference; other delegates went to summer camp and conference for recreation and inspiration.

The Sub-Deb Club, one of the newer clubs at the Lansing Central High School, was organized for the purpose of developing charm and personality in its members. The club has several activities which it undertakes to do each year. The first one, is that of doing various pieces of charitable work in the holiday season, and the second, that of having a party among its members each semester. The club also has a main project which serves as a regular course of study each year. That is quite a thorough study of Margery Wilson's "Charm Course." Any girl who is interested in developing her personality and charm would find it worth while to join this club.

Since business and commerce have become such all important occupations in our present day life, the Commerce Club was organized for commercial students in Central High School. The purpose of the club is to get its members acquainted with modern business, banking, and industrial methods. In accordance with this purpose, the club hears lectures upon commercial subjects, makes several visits to business offices in Lansing, and interviews successful business men. The club provides a splendid opportunity for those interested in the working of the modern business world. The club also sponsors several social gatherings and programs each year.—A busy club for busy people.

The Hi-Y Club being a unit of a national organization is but one of several thousand clubs which have a like purpose, that being, to create, maintain and extend throughout the school and community high standards of Christian character. The Lansing Central Chapter of the Hi-Y takes great pride in calling itself a service group, as it is with untiring efforts that they sponsor the Sophomore Mixer and the Sophomore Assembly semi-annually. This group is also very active in supporting the Area and State Older Boys' Conferences in which several hundred Michigan youth participate each year. The club is especially noted for its ability to thrive on Bohemian dinners, as they are a frequent occurrence and are joined with a recreational period in the gymnasium. But on the whole we find them to be just a group of modern youth who enjoy spending a small portion of their time in serious thought.

The Verse Speaking Choir is one of the newest ventures among the clubs and societies of Central High School. It was found necessary to limit the membership to fifteen students in order that the work of the organization might be accomplished well. The purpose of the group is to develop an appreciation of and to develop the reading of good poetry. Poetry is written with rhyme and rhythm which mean nothing when the piece is read silently. It is the purpose of the choir to bring out these hidden beauties, by reading the poetry aloud in a group. The group practices reading certain selections together harmoniously. Throughout the eight meetings of the semester, the club develops appreciation of a large number of pieces.

The Taperette Club claims several justifications for its existence. One reason girls join it is that they enjoy tap dancing. Then there are girls who want to improve their dancing, so the organization has as one of its objectives, the improvement of the girls' technique along that line. The club also offers its services to any other group or organization which would like to have tap dancing as a feature of its entertainment on various programs. This year the girls have as their project the working out of a vaudeville skit including several dances. The club is divided into three groups each of which is responsible for one act on the program and which works independently of the other two groups on its dance.

The object of the Boxing Club is to give an opportunity for practice and instruction to boys who like to box. Along with the boxing the members may either wrestle or play basketball. Every year more boys become interested in this club. Boxing and wrestling is very healthful and good for anyone who wishes to take it. The Boxing Club appoints offiers that take charge and these officers pick a committee to get some instructor in boxing or wrestling to come and talk to the club. The Boxing Club is looking for more boys to join the club so it will be more interesting.

The Athletic Booster Club was created originally for promotion of game attendance, management of concessions, printing of programs, and sponsorship of Athletic Banquets. In accomplishing these things it cooperated very closely with the department of the Athletic Director who was adviser to the club. Many of the above activities have, however, been incorporated into the Athletic Department, proper, as regular sources of income, with the result that the club has come to have a three-fold purpose at the present time. (1) Spreading of general information pertaining to athletics. (2) Sale of athletic novelties to promote game attendance. (3) Sponsorship of banquets. Last year the club sponsored a banquet for the Cross Country Team.

The Varsity Club is an organization which has long been one of Central's important activities. This club has several different purposes in view which are listed in its constitution. Some of these are the following: to promote better sportsmanship among the athletes of our school; to try raising the scholarship of those interested in athletics to a higher level; and above all to do all in its power to help the Athletic Department of Central. The members of the club hold dinners or "feeds," as they are called, at someone's home at which new members are then taken into the organization. In the meetings the usual program is a speaker in some way connected with athletics who is able to keep two or three dozen fellows interested in his talk for about half an hour.

The Camera Club, one of the newest clubs at Central, was organized by Mr. Keith, the present adviser of the club. The group has made such a rapid growth that there are now two divisions, one meeting on regular club days, the other on society days. The object of this club is to attain the art of picture taking, developing, and printing. The social side of life is not emphasized and is permitted as a club activity, only as suitable proficiency in the photographic art merits such occasions. One goal which the club hopes to attain is the making of pictures for the Oracle. Mr. Keith has given some very interesting demonstrations on developing pictures.

The Young Men About Town Club was formed to promote courtesy in the sense of developing, within one, traits of fineness necessary in modern youth. Members of this club aim to be smart young men capable of proper orientation in a student body. To accomplish this, discussions concerning the correct mode of dress and appropriate conduct in public constitute the programs on club days. Also golf, tennis, and other athletic sports are dealt with because physical fitness plays an important part in a young man's life. Thus it is a new club with a new purpose, one that is hard to attain, but necessary to the ideal man of tomorrow. Straight, courteous, gallant, the members of this club can be, and all future members who willingly cooperate.

The Gad-About Club, composed of ten interested girls, has for its purpose a better knowledge of representative Lansing activities and an appreciation of the unique spots of historical background and governmental interest in the Capital City. About every two weeks, through planned and escorted visits to the various places selected, the members hope to find much of value and enjoyment in carrying out the purpose of the club. During 1934-35, the first year of the club's appearance at Central, it planned to visit a bakery, a dairy, an automobile factory, the Capitol, the governor's "mansion" (in which no governor ever lived!), to make an out-of-town trip of investigation to some well known neighboring industry.

The Knit-Knot Club was organized for the purpose of instructing its members in the art of knitting. The yarn, which the girls used to knit sweaters, skirts, and similar objects, was purchased from the Polly Potter Shop, and at each of the club's meetings Mrs. Potter acted as instructor of the club. The club had several projects which it undertook, one of which was supplying a poor family with food and clothing at Christmas time. Another was holding a dance shortly after Christmas. The club was disbanded at the end of the first semester.

The primary purpose of the Radio Club is to train students in the art of radio communication. When this training is completed the members are able to take the government examination for their amateur license. They are then able to operate the 150 watt high school transmitter. The call is W8ZF. A number of the members are experimenting with five meter receivers and transmitters which is a comparatively new field in the Radio world. The Radio Club is not limited to students interested in amateur radio. Any student who is interested in any phase of radio may join the club. Receivers and other equipment is available, and experiments may be carried on in the radio station.

ATHLETICS

JOHN J. MIDDLESWORTH
Head Coach

GREGORY ROBINSON
Director of Athletics

With the continuous seasons of athletics, we, as students sometimes fail to consider the necessary mechanism involved in every athletic contest.

Not only do we find the coaches contributing many hours of time, in effort and thought, to prepare their team for competition, but also the Director of Athletics, as he is indirectly responsible for all phases of our athletic program. A few of these duties we find being taken care of back-stage are the preparation of schedules, equipment to be purchased and taken care of, officials secured for the game, eligibility problems to endure, and many other tasks of like nature. And to always finish the game and every season with a smile should make us proud to have them bear our name, and also make us more appreciate our superior coaching staff.

Thus, we take this opportunity to express formally our appreciation to Mr. Robinson and all the coaches for the their splendid work and their untiring efforts exerted in behalf of Central High School.

BOARD IN CONTROL OF ATHLETICS

The Athletic Board of Control supervises all forms of Athletics instituted in Central High. From the general organization of the school two boys and one girl are elected to seats on the board. The four other members are: the principal of the school, treasurer of Athletic funds, director of athletics and faculty head coach. Some of the more tangible duties of the Athletic Board are to approve schedules that have been arranged for our teams, and to confirm the selection of letter winners made by the coaches. The board also controls the amounts expended on equipment for each sport, and sets the prices of admission to all athletic contests. Another duty of the board is to maintain coordination in our school athletics and also develop friendly relations with our competitors.

FOOTBALL

1934

The Big Reds enjoyed a fairly successful season, emerging with three wins, three losses, and three stubborn deadlocks. Coach Middlesworth and his assistants, Deane Burnham and Morie Green, had a hard task in supplying a line which could replace the boys who graduated, and should be complimented on coming thru with a very fast and sturdy line. The first four games saw the Reds come thru undefeated but not untied. Two victories were registered over St. Johns and Saginaw Eastern and the two ties with Jackson and Grand Rapids Central. The next two games the Chiefs met defeat; the first a stinging one at Ann Arbor and the second at the hands of Saginaw Arthur Hill. The third tie was recorded at Battle Creek. The last battle of the season with Eastern proved to be a tough one. Great football ability was displayed throughout the game. Steadman, Morse, Michaelis, Oade, Ricks, and Speelman stood out for the Westsiders. Speelman made a touchdown, which might have proved fatal to the Eastern team, if it had been allowed by the officials. Eastern had a very difficult time in taking the Big Reds 13 to 0.

LITTLE RED FOOTBALL

1934

The reserve football season started very well with Lansing Central's defeat of the Boys' Vocational School, but was very much dampened by an Eastern Reserve team that was much larger, faster, and more experienced. At Mason the scoreless game was full of tense moments. At one time the ball was on Mason's four yard line with the first down for Central. Over and over Central threatened Mason's goal but with no success. The Mason High School band lent color to the occasion and did some very splendid marching. At Dimondale every member of the squad saw service in the game. A two man Dimondale passing combination kept the game interesting from the spectators' point of view.

The spirit of the team was excellent at all times in spite of the usual personnel problems brought on by injury and promotion to the varsity. The backfield, although very light, did some stellar tackling at times to rectify errors on the part of a very inexperienced line. Richard Bates, fullback (kept out of the above group picture by illness), made a very large percentage of the total number of tackles of the year, oft-times doing work that was left undone by half-backs and ends. In general the crying need was for larger, faster, more rugged and aggressive sophomores.

BASKETBALL 1934-1935

Coach John J. Middlesworth definitely accomplished a great feat, one that has never been done before in the history of Central, or in that of the Five A League. This feat was to turn out a quintet which won all of their scheduled games. They not only claim this record but they also went thru the Regional and State Tournaments undefeated. Nineteen straight victories awarded, and the State Crampionship! What a record! William Carpenter, the fighting captain of the squad, showed his superior ability on all occasions. When the team was in a tight place and a decision had to be made, Bill was on the spot with his full knowledge of basketball. Bob Morse, our long, rangy center, came thru at the State finals with eleven points. He too exhibited equal talent during the entire season. Robert Steadman and Harold Michaelis were a constant threat, Bob playing his hard driving game the whole year through, while "Mac," the opposite forward, always played his usual steady and effective game. Edward Abraham, better known as "Blackie," was the spark plug of the team, always optimistic, and that is necessary in any winning combination. The reserves deserve their credit too, as they were always ready and willing to fit into the game with a fighting spirit.

LITTLE RED BASKETBALL

1934-1935

The reserve team in basketball this year had unusually good material due to promotions of excellent boys from Coach Vander Muellen of West Junior and Coach Beck of Walter French. The team has shown splendid spirit, willingness to learn, and an unselfish attitude concerning removal from games to give experience to more players. In mid-season, ineligibility, sickness, and promotion forced reorganization of the team; however, the morale of the boys remained high enabling them to finish winning eight out of eleven scheduled games.

TRACK

1934

The track team had a limited schedule this season and was unable to prove its own strength. However, in their three meets they were most successful. The first was with Battle Creek and our score was the greatest ever tallied against Battle Creek in track competition. We next met Eastern, which we also took easily. Then came the annual Five A meet in which the Central thinclads placed a fine second. It was in this contest that Lee Barnett shattered the Five A record for the 440, thus making him the sole possessor of this honor.

SWIMMING 1934-1935

Coach Gleason's Tankmen failed to rise to the expected standards that Central swimmers have been noted for. The season as a whole was fair, however, with victories over Jackson, Pontiac and Ann Arbor. The two victories won over us by Lansing Eastern were the first to be known in the history of Central. To balance this the boys staged a splendid comeback and climaxed the season by defeating Eastern in the Five A meet. Captain George Calhoun, our only entry in the State meet, placed fourth in the fancy diving, losing his State title. Major awards were given to the following: Captain Calhoun, Bell, Pletcher, Speelman, Holly, Wenzel, Parke, Pratt, Evans, Hopkins and Meier. Coach Gleason expects to have a well developed team next year as he is abundantly supplied with good sophomore material, for which he is very thankful.

CROSS COUNTRY 1934

Coach Gleason had expected four members to return from his last year's well balanced championship team, but due to ineligibility and other unavoidable circumstances only Captain Chuck Chamberlain returned. The season, as a whole, was not as successful as expected but for the first time in the history of Central the individual Five A Cross Country championship was awarded to us and that by the efforts of Chamberlain. We have plenty of very promising material for next year in Haddad, Pollitt, and Goodrich. Major awards were given to John Valo, Don Frisoskey, Bill Pollitt, Charles Haddad, and Charles Chamberlain.

1934

This year's tennis team had a most successful season. They only lost two out of ten dual meets, those to East Lansing and Lansing Eastern. This was largely due to the faithful coaching of Harold Lantz. Major awards were given to Harry Purdy, George Graham, Ward Broadbent, Wendell Foltz, Don Ehret, George Carpenter, Sterling Klink and Bud Rutter.

RELAY TEAM

As a result of many hours of hard practice and constant training, the above pictured athletes won honors for Central at the Second Annual Michigan A. A. U. Meet held at Yost Field House in Ann Arbor. Central's mile relay team captured the Five A title in a very close contest, the time being 3:43.3 for the distance. Jackson and Ann Arbor finished second and third respectively.

1934 SWIMMING TEAM

The Girls' Swimming Team is a competitive organization, composed of the best swimmers in Central. In the spring of the year, meets are held by the A and B divisions of each class, to form an all class team. Next come the class finals in which the various class teams compete for the class championship. Last year the Juniors were victorious. An honorary school team is chosen from the place winner of this final meet.

1934 GIRL'S CHAMPIONSHIP VOLLEY BALL TEAM

Every fall a "Round Robin" tournament is held both in basketball and in volley ball. Six teams compete, two from each class, and each team has an opportunity for playing with the other five teams.

In Volley ball last fall, the Junior Class was outstanding. The Junior B's, with Dorothy Heberling elected as the Girls' Athletic Manager, won all of their intramural games. The Junior A's offered them close competition by winning all but one game.

1934 GIRL'S CHAMPIONSHIP BASKETBALL TEAM

The Girls' Basketball Championship, much to our surprise and delight was won by the Sophomore B Class. They have shown their ability by mowing down all opposition, and we will expect to hear more from them during their years at Central. Mary Ann Bradshaw was their Athletic Manager. The Junior B Team, winner of the volley ball tournament, rated second, with four games won. The basketball tournament was conducted in the same manner as the volley ball meet was.

REO OWNERS PAY NO PREMIUM
for Style and Beauty

THIS CAR HAS ALL FINE CAR FEATURES

Your first glance at the handsomely streamlined Reo Flying Cloud for 1935, will prove that it is unnecessary to pay a higher price for advanced style and beauty. But Reo VALUE lies deeper than mere style, paint or upholstery. It is manifested in QUALITY—in every hidden detail—in manufacturing policies which insist on rugged construction at every point of wear. Here is a typical Reo quality-built car, that has *all* the fine car features plus the exclusive advantages of the Reo Self Shifter. See and drive the new Flying Cloud. It delivers, fully-equipped at your door, for no more than cars whose performance and features do not begin to compare with this new and finer Reo.

IT PAYS TO ATTEND A GOOD SCHOOL

Choose a vocation in which opportunities are limited only by individual ability. Demand College-Level Training—Business as well as other professions, expects it of you. The demand for untrained and half-trained help is small—the call for better-trained office assistants is greater than the supply.

L. B. U. believes you are entitled to college-level instruction from college text books taught by teachers with college degrees. (It has the Lansing franchise for Walton accounting and for Stenotypy.)

L. B. U. seeks only the better positions for its graduates. It gives a lifetime of free employment service.

68 years of service to employers of Central Michigan. Prestige which can only come with three generations of usefulness.

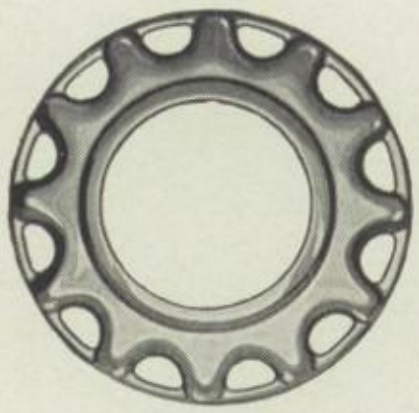
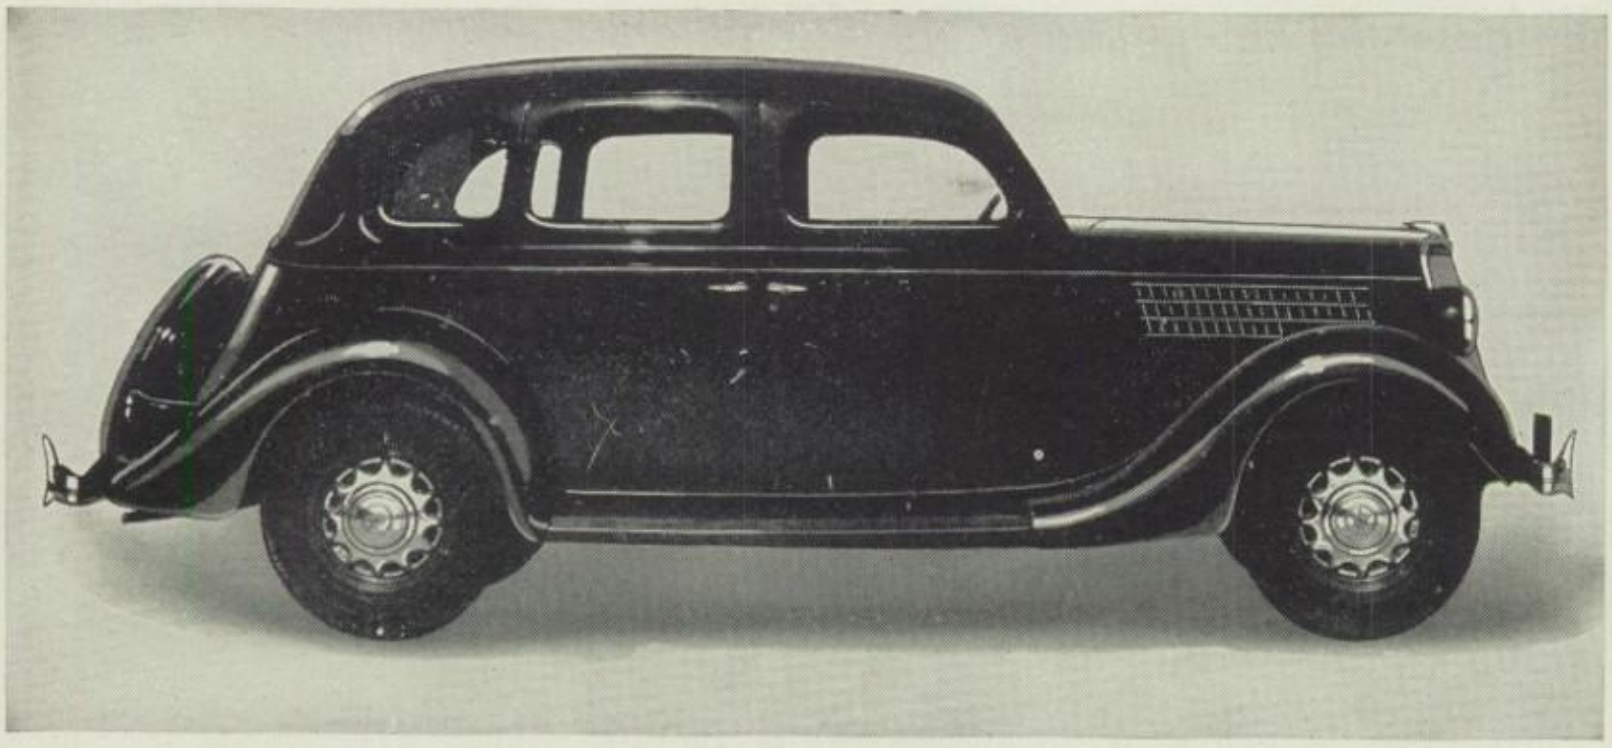
MW WHEEL CONVERTOR

designed for the beautiful 1935 Ford V-8



Patent applied for



Just Snap Them On Over Your Wire Wheels

Here is a modern accessory for your 1935 Ford V-8 which adds new distinctive beauty and individual smartness to this modern stream-lined motor car at an unbelievable low cost. Designed exclusively for the 1935 V-8, MW Wheel Convertors offer modern chrome-finish* steel spoke wheel appearance without removing or making a single change in the wheels now on your car. MW Convertors snap into place without tools right over your wire wheels and can be installed or removed in a few moments time. They do not cover the original, good looking V-8 hubcap. Get a set now from your favorite dealer. You'll get a real "kick" out of the result.

*Also available with primer coat only for painting to match your car.

MW Also Manufactures

Demountable Steel, Wire and Wood Automobile Wheels
Forged Spoksteel Truck, Bus and Trailer Wheels
Centrifuse Brake Drums
Industrial Stampings
A Complete Line of Oil Burners and Oil Burning Products

Where to, - - Now?

FIRST—we offer our congratulations to you who are graduating.

But—where to, now?

Times like the present are rare. You are graduating into a changing world—one which holds a promise of success to him who is willing to observe and learn from the ever moving panorama of daily events.

Whether you enter now into a school of education or the school of experience, keep in mind this thought—there is a place for new ideas and new methods.

Wherever you go—do your part in helping to make the world a better place in which to live. The rewards are great.

Future Successes *from* Present Contacts

The future! How nice it would be to know what we could best do to improve our financial position in the years to come. But it is a long drawn out process that unfolds slowly, day by day. There is a way, though, that helps and that is to ally ourselves with business leaders—men and women who are doing things—and thus expose ourselves to opportunities through direct association.

And that brings up the right choice of Banks. Select your Bank by its position in the community—by its record of growth—the ability and integrity of its directorate—its attitude toward individuals—and above all, by the number and class of people who do business with it, and through it.

American State measures up to all of these requirements. It measures up in personnel and diversity of financial activity. It has combined deposits of more than $4,500,000.00 which places it first in Lansing, and a leader among Michigan's reorganized Banks.
